Dear Mr. Seidenbaum,

Those of us who have been working to save Mineral King do appreciate your taking time from a busy schedule to do the research reading, make the trip to Mineral King, and write the column. It's the first time I've seen anything in the Times which points out the poor planning of the Forest Service.

I hope that sometime in the near future you and your family can visit us there for a week end of relaxation. Now that Jack and Armony Share have returned from Mexico, I'm sure they will be visiting us. We'd be happy for you to come with them, and it would really be a pleasure to meet you in person.

Sincerely,

Jean Koch
